Electricity Green

We offer you the opportunity to utilise "green power" for as much of your exhibition stand's electricity needs as you require. 100% of this electricity is generated using water power. Please place your order no later than 14 days before the start of the event.

If requested Messe Frankfurt Venue GmbH & Co. KG will provide you, free of charge, with written confirmation from the energy supplier regarding the source of the "green power" and the means by which it was generated.
